

To all Captains and Coaches.

There has been a few incidences recently of the match card not been filled in by the end of the match, when the umpires have gone to do their duties.

The umpires cannot wait (and cannot be expected to wait) for team captains or coaches to come in and fill out the team sheet, as most umpires have other coaching duties or will be playing. As a result the SCHA has agreed to the following:

If a team hasn't filled out the card by the time the game has finished, then the team will have the score line accredited with the goals they scored but no players names will be put on the card (as the umpires are directed to cross out that teams section). As a result, no individual goal scorers will be recorded for this team.

At no time may a captain or coach alter a card that has been signed by the senior umpire, unless permission is sought before-hand.

To all Umpires.

If when you get to the scorecard, one team is not written on the card, put a line through that teams section and make a note of the fact (in the infringing teams section) and sign it.

If one or two players names are missing this is okay only if the captain come over and adds their name(s) straight away. Otherwise wait until you need to go, then sign the card and cross out the infringing teams section, sign this section so no names can be added afterwards.
